Cynodon dactylon.

**Common name:** Green Couch Grass, Bermuda Grass, Doob

This is a perennial medium to low density grass that can tolerate filtered sun and is mat forming. The flower has 2 - 6 slender spikes, 2-5cm long and 1-1.5mm wide with a green to purplish colouring. Due to its underground rhizomes it is a very persistent grower. It is often used as a garden lawn, on sports ovals and golf fairways.

**Distribution:**
Western Australia, Northern Territory, South Australia, Queensland, New South Wales, Victoria, Tasmania.
